President's Message
By Tom Telford

HELLO TO EACH AND EVERY MEMBER

Thanks to Chris Collins for answering a multitude of questions from the membership at the May meeting. We continue to lean on Chris for our programs, as we are having difficulty in locating speakers with connection to Computer Technology, to speak at our meetings. If anyone has an idea for a speaker please pass it on to one of the Board members.

Along the same lines as Chris's question and answer session at the last meeting, we are entertaining the idea of having a workshop, where-by members would bring their own laptops to an educational lab. We would use the projector to duplicate a member's problem or "How To" question, on the screen, so that all could work through the topic on their own units. There would also be roving Mentors to provide individual help throughout the session. We will ask interested members to sign a tentative attendance list at the June meeting, so that we might gauge the level of interest in this educational endeavor.

Please be aware of the meeting and help desk items and schedules, which appear in other sections of the newsletter.

Respectfully submitted,

Tom

Did You Know?

In honor of this month's Flag Day, here is a bit of American history:

June 6, 1755 - American patriot Nathan Hale (1755-1776) was born in Coventry, Connecticut. During the American Revolution, he volunteered for a dangerous spy mission in Long Island and was captured by the British on the night of September 21, 1776. Brought before British General William Howe, Hale admitted he was an American officer. Howe ordered him to be hanged the following morning. As Hale mounted the gallows he uttered, "I only regret that I have but one life to lose for my country." He was 21 years old.
