President's Message By Tom Telford

HELLO TO EACH AND EVERY MEMBER

Thanks to Chris Collins for his program on current video streaming options at the June meeting. I want to personally thank Chris for jumping in on short notice as we had a program scheduling problem for the meeting.

Because of their program at our May meeting, we will be presenting a monetary donation to the Mountain Home Bomb Squad at our July meeting,. The group arrived at the name "Bomb Squad" from the Mountain Home Bombers nomenclature and are working with robotics, not bombs. Our membership was duly impressed with this group of young people.

I would ask that members using the help desk be considerate of others by limiting the amount of time they spend in this venue at any given time. We have had numerous complaints about members spending an inordinate amount of time at the desks, thereby, precluding others from the benefit.

We will attempt to provide help outside of this setting if anyone needs extra help.

I continue to suggest that anyone desiring computer learning programs, look at LearnFree.org.

Tutorials are presented using video format so there is the opportunity to pause the video and actually practice the key strokes while progressing through the lessons.

Please encourage others to use this site that you are currently on, by going to:

Officer and Director contact information is available on this site, in addition to its many other attributes.

Please be aware of the meeting and help desk items and schedules, which appear in other sections of the newsletter.

Respectfully submitted,

Tom
