November 2016

President's Message By Tom Telford

HELLO TO EACH AND EVERY MEMBER

Thanks to Chris Collins, TLCUG Program Director, for his presentation at the October meeting. His topic was "New for 2017: What to look for in the coming year." Chris introduced us to some new products available and some coming soon. They included wearable computers, prosthetics, wireless charging, Google Home, and Google's Duo. Chris also answered questions from the members

The "hands on" workshop was held on October 21st, and was again very worthwhile. Many exercises were demonstrated on the screen, allowing the 13 attendees to follow along on their own laptops. We will present overviews on various software and would like members to bring any problem they are having to the sessions and we will attempt to show all how to navigate their way through the issues. There will be a sign-up sheet at the November 3rd meeting, for the next session to be held on November 30th, at 10:30 AM in our normal Library meeting room. The primary topic of this class will demonstrate the use of Excel, which requires that attendees have Office software on their fully charged laptops.

Please remember that the election of the 2017 Officers will take place at the November meeting. There is one change in the slate of nominees, as announced at the October meeting. Joanne Friedland has withdrawn her candidacy for Treasurer and Barb Skeffington has agreed to fill that nominee position for consideration by the membership.

Please be aware of the meeting and help desk items and schedules, which appear in other sections of the newsletter.

Program Schedule

November 2016: David Fry - Director of Information Systems at BRMC.

Speaking on the hospital's technology and patient/ hospital technology.
